Impressionable Years:
How Our Children
Are Really Influenced**

Make Betsy Ross' skirt out of George Washington's wallpaper.

The wallpaper thing is true.

We hunted for months in little

material shops until we found some swatches of material that almost exactly matched the wallpaper pattern George had in his bedroom.

In the process, we ran across

a lot of other old and interesting patterns

Tiny blue flour-sack flowers. Colonial

stencils. Pillow-ticking patterns.

Grandma Moses primitives

Wildflower linoleum

block prints. Farmer

patterns. Ancient ban-

dana prints. Peasant

patterns. Paisleys.

(Paisleys were invented in pre-historic times. Originally rude prints made with the heel of the fist, they later became stylized.)

All of the patches are bright, earthy, and happy.

They go with anything from ruffled lace to blue denim to Army olive drab.

We've taken 180 of these 4" squares, and included them in a kit with unconventional patterns for a mini, midi, or maxi skirt, a jumper, a pinafore, a poncho, a shoulder tote bag, kerchief, hot pants, peasant bolero, knickers, or slacks.

If you make the smaller items you can make two or three things with one \$6 kit.

(In the old days, women used to weave and print their own cloth. So every scrap was valuable, and every scrap was saved and used. No one would have dreamt of throwing it away.)

Everything in the kit is the best quality you could buy. The material is all good old American washable crease-resistant pre-shrunk cotton. Pinked on all four sides of every patch to prevent raveling. Even the thread is first-quality Coats & Clarks. The press-on tape and elastic banding are the finest made.

Sewing the kit is very easy. And it's fun. You create your own fabric as you sew. If you're really gutsy, you can create your own patterns.

Patch your jeans. Or put pockets on a solid skirt. Make gifts.

(One kit makes 3 tote bags, 10 ties, 12 throw pillows stuffed with torn pantyhose, or 22 potholders.)

Cafe curtains take one kit. Shower curtains take 2. A bedspread might take 3 or 4.

Make a country apron for your Mother. Or a cummerbund for Dad's tux. Or a great shirt for your boyfriend. You can quilt the material.

Add fringe. Or ric-rac. Start a sewing bee.

The possibilities are endless. It is virtually impossible for any other girl in the world to come up with an identical garment, even if she used the very same patches as you did.

The permutations and combinations of 180 four-sided patches is astronomical.

This is very important.

Patchwork gets very popular in Revolutionary times.

A Checklist of Ways To Protect Your Home

By Edward M. Davis, Los Angeles Chief of Police

No home—house or apartment—can ever be made 100-percent robbery and burglaryproof. But there are means to assure you, your family and your property an enormous amount of protection. Most of them cost little money. Basically, the idea is to deter a potential intruder from getting into your premises by "hardening the site," as the military would say. In short, make it difficult for him to break into the house. Here are the most basic rules to follow:

1. The best protection is a dog, and the two best types are the Doberman and the German shepherd. They are intelligent, usually gentle with the family and fiercely protective. But raise them to be a bit reserved with people outside your immediate family.
2. It's comparatively easy to get into a house with sliding glass doors by simply wiggling open the lock. To avoid this, put a stick or broom handle in the

lower track. This way the door can't slide open. As an added protection, you can put little bells on the inside of the screen door or any other device that makes a noise when jiggled even slightly. No intruder likes noise.

3. Wherever you have solid doors, install "dead bolts" (these are locks which have to be locked by hand, as opposed to "spring latches," which can easily be opened). No amount of manipulation from the outside will open that lock. If you have glass panels in your door, get the type of lock that can be locked from both outside and inside with a key. Otherwise the intruder could break the glass and reach in to open the door. And be sure the doors are solid, not hollow doors that can be easily kicked in.

4. If you have a double door, don't rely on a tiny bolt to keep the second (usually) stationary door from opening. It

Protect Your Home (Continued from page 11)

can be kicked in easily. Get a thick commercial type half-inch bolt. As added protection you could bar the doors on the inside with two-by-fours slid into ornamental hardware.

5. Keep some exterior lights on—all night long. If you are away for the evening or on a vacation keep one or more lights on inside as well but not in a room that can be looked into from the outside.

6. Electronic alarm systems have value, but they are expensive and by no means foolproof. Naturally, extreme noise such as bells going off loudly, will frighten some but not all burglars. Some of the more elaborate alarm systems have lines to both private protective agencies and the police. But about 98 percent of all alarms we get that way are false—someone forgot to turn off a system to get into their house, opened a window in the middle of the night to get fresh air, dogs running into it. That sort of thing.

7. Call your police if you see anyone suspicious, not just in front of your home or apartment, but near your neighbor's as well. And ask them to do the same for you. Many people think that the police don't like to be bothered. Not true. We'll gladly respond to 99 calls that don't pay off in the hope that the hundredth will net us a man we are looking for.

8. If someone actually breaks into your home, and sees you, use your best judgment what to do. Screaming is good—provided you don't live in a soundproof apartment or house. If you can convince him another member of your family may come back momentarily or is in a different part of the home, it may help. There are times when doing nothing is best. But if

you're attacked, fight back by every means, fair or foul.

9. Have the number of the police on all your phones. If you don't remember, call the operator.

10. If a stranger should ask to use your telephone, don't allow him to enter. Instead, offer to make the call for him.

11. Have your valuables appraised and record a description and the serial numbers. Leave a copy of it in your safe deposit box. Every year we collect thousands of items that have to be auctioned off because we can't find the rightful owners. Last year in the Los Angeles area alone, we auctioned off 800 bicycles because we couldn't find the youngsters who owned them.

12. If you have a garage attached to your house, with a door that leads into it, never leave the garage door open and unlocked when you are gone. It's too easy for someone to go into the garage, close the door, then work his way into the house undisturbed.

13. Don't advertise your absence. Refrain from having an article in your local newspaper that mentions your trip—until you return. Arrange to have your lawns and shrubs trimmed and watered while you are away. Leave the blinds or drapes drawn in different positions—not closed—and arrange to have these positions changed from time to time by a neighbor. Turn your telephone bell down to its lowest level. A constantly ringing telephone is an indication that no one is home. Stop your mail and paper deliveries. In addition, have a friend or neighbor check your mailbox and driveway or (in an apartment) front door to be sure that nothing (i.e. a delivery) is left that could give you away. □

Jobmanship

Introducing a new feature dedicated to helping you understand and improve your on-the-job relationships. By S. R. Redford

HOW TO HANDLE A COWORKER'S INCOMPETENCE WITHOUT NAGGING

● People working alongside you can often make or break your job. No matter how efficient a worker, teacher or salesperson you are, if there's friction between you and co-workers, your supervisor may consider you a liability.

When a fellow-worker's actions are complicating your job life, the safest approach is to avoid any tinge of fault-finding. Instead, achieve what you want by letting him help you. For example, "John, I have a problem keeping up with my paperwork. Maybe you can help me. Could I have the parts-order sheets every day before lunch? I think then I could take care of them by five o'clock." This implies that you have something at stake. It's not criticism, but rather a constructive request for aid. Spoken in private to your fellow worker, it should produce results while keeping your job friendship intact.

WHY CAN'T PRODUCTION AND SALES PEOPLE BE FRIENDS?

● You may have noticed that production and sales people in the same company often disagree at business meetings. According to an authoritative management publication, it's the inevitable result of two very different kinds of personalities.

The production man is usually a "realist." He's a good administrator and fact oriented. He sees the world and the people in it as a complex but mechanistically patterned place.

A salesman sees people, not facts, as the real center of the world. Influencing others is his main concern. Year in and year out salesmen are impressed by the whims of human responses. As a result, sales personnel are not particularly impressed with facts.

At the company meeting, the production man hammers away at the facts of the situation. The salesman at the same meeting is impatient with "mere" facts. He sets forth the plan that his experience and his hunches lead him to trust. Is it any wonder that the production man's and the salesman's proposals are often so very different?

Denture Invention

For People With "Uppers" and "Lowers"

For the first time, science now offers a unique plastic cream that holds dentures—both "uppers" and "lowers"—as they've never been held before. It forms an elastic membrane that helps hold your dentures to the natural tissues of your mouth.

It's FIXODENT®—a revolutionary discovery for daily home use. So different it's protected by U. S. Patent #3,003,988.

FIXODENT not only holds dentures firmer, but it holds them

more comfortably, too. It's so elastic you may bite harder, chew better, eat more naturally.

The special pencil-point dispenser lets you put FIXODENT exactly where it's needed. Resists oozing over and gagging.

Just one application may last for hours. Dentures that fit are essential to health. See your dentist regularly. Get easy-to-use FIXODENT Denture Adhesive Cream at all drug counters.

A Reader's Remembrance:

The Day I Met Johnny Cash

He hesitated a moment, as
though thinking, then
looked me straight in the eye.
"Suicide is a dead-end
street," he said softly.

It was the spring of 1959, a Saturday night in Shreveport, Louisiana. I was an Airman Second Class stationed at Barksdale Air Force Base in Bossier City, La., far from my home in Tennessee. I was 22 years old and very despondent that night, close to the thought of taking my own life. I'd only been in the Air Force for a few months and had never been so far from the people and places I loved. Nothing seemed to be going right. The world seemed bleak and empty.

To perk up my spirits, I decided to go to the Louisiana Hayride, a popular Saturday-night show near the base. The special guest that night was a man who was not too well known nationally but who had already made a name for himself on the country music circuit—Johnny Cash. I'd always loved his music but had never seen him perform in person. Johnny took over the stage like a thunderbolt—he sang and sang with all his heart, making every song ring true. I watched him perform and thought to myself: Here's a man whose life has meaning because he can make other people feel good. I was determined to meet him.

I waited backstage after the show was over, and finally Johnny Cash came through the door. I was only hoping to get his autograph. But when I saw him face to face, I felt a sudden compulsion to stop him and tell him my troubles. I murmured something to the effect that his performance had helped me a great deal.

"I know how you feel" he said, looking up from his autograph signing and straight into my eyes. "I've only been out of the Air Force a couple of years myself, and I've had those same feelings."

Then he did something which had a profound effect on me. Setting his guitar case down, he put his arm around my shoulder and walked off with me a few steps. "Try to remember something, son. Life has corners, corners you'll find you have to turn even when you didn't know they were there. And though things may seem terrible at the time, around every one of those corners is a new story and a new friend. Life is a challenge. There's always something to look forward to."

He hesitated a moment, as though thinking, then looked me straight in the eye again. "Suicide is a dead-end street," he said softly.

I watched him as he picked up his guitar case and walked to his car. I'm sure Johnny Cash doesn't remember this meeting with me now. For he's come a long way since then. But he seemed so sincerely interested in me, so determined to help me in whatever way he could. He gave me new strength. I did get through those trying days, and I did find new friends, new interests. But it was Johnny Cash who made me do the looking.

That Annual Checkup

—Is It Worth It?

Remember: It's as reassuring to be pronounced healthy as it is important to be treated early

Because the company she worked for required it, Joan A., a 23-year-old secretary, recently had a complete medical checkup. During the examination, her doctor found a small lump in her breast—a lump that turned out to be cancer.

Thanks to early treatment, Joan has probably been cured of breast cancer—a disease which each year kills about 30,000 women in this country, nearly 500 of them between the ages of 15 and 34. The young secretary is still shaken by her experience. "At my age, you don't think anything could be wrong with you. I wouldn't have had a checkup if I hadn't had to."

Yearly checkups are the best insurance we have for a long and healthy life. A survey compiled by Ralph F. Schneider, M.D., of New York City, shows that unsuspected disease is surprisingly common. Of more than 18,000 persons who received routine exams, only one in six was found to be completely healthy. One in three had a significant disease that required treatment.

Why do so many persons fail to have yearly checkups? Indifference—failure to realize they're important—is the chief reason, according to a study by the American Cancer Society by Lieberman Research, Inc. Men in particular tend to shun checkups, believing it's "unmanly" to see a doctor when they're feeling well, the study indicated.

Having an annual exam doesn't, of course, guarantee a long life. But it *can* prolong life. An extensive study carried out by Norbert Roberts, M.D., Associate Medical Director of Standard Oil of New Jersey, showed that a group of executives who had periodic checkups had just over half as many deaths as a comparable group of men who didn't have exams.

What Your Annual Medical Checkup Should Include

What should a checkup include? Here are some general guidelines:

- A complete physical examination and medical history
- Blood tests
- Vision and hearing tests
- Urine tests for albumin, sugar and cholesterol
- An EKG, if you've never had one

- A blood-pressure test
- A chest X ray
- For women, a breast and vaginal examination and Pap test
- For men, a prostate examination
- For persons over 35, a "procto"

Your own doctor is the best judge of your health needs. Perhaps he will want to include additional tests

• Years Of "Fat Research" Finally Pay Off! • Discovered In Our Largest City's Research Center • Successfully Tested and Proven In Thousands and Thousands of Clinical Cases

REDU-CAL™—SCIENCE'S INCREDIBLE "FURNACE-IN-A-TAB" THAT TRIGGERS THE SAFEST, FASTEST, MOST EFFECTIVE FAT-BURNER THE WORLD HAS EVER SEEN!!!

LOSE

up to **7 lbs. in just 48 HOURS!**
up to **16 lbs. in just 1 WEEK!**
up to **34 lbs. in just 1 MONTH!**
up to **79 lbs. in just 3 MONTHS!**

YES, MELT AWAY, BURN AWAY, FLUSH AWAY AS MUCH AS 79 POUNDS OF FAT IN JUST 3 SHORT MONTHS!

Not a dangerous drug... Each "tab" sets the stage for a fat-burning chain-reaction FOR PERMANENT LIFETIME SLIMNESS!

So safe, a leading doctor not only recommends REDU-CAL to his wife and patients, BUT INSISTS that anyone with a weight problem can avail themselves of this FINAL VICTORY OVER FAT... THAT OXIDIZES, VAPORIZES, TOTALLY ANIHILATES EXCESS WEIGHT AS FAST AS UP TO ONE POUND EVERY 8 HOURS!

NOW! A LIFETIME OF SLIMNESS WITHOUT A MOMENT OF HUNGER!

First, I want to make one thing perfectly clear. No matter how many times you've been fooled by useless drugs, fad diets, or ridiculous exercises, etc., you simply must accept the fact that you cannot buy "slimness in a bottle". No one pill will by itself can ever "atomize" 30, 40, 60 pounds of excess flab overnight! BUT... there is a special new formulation... designed by a leading medical authority, that when used as directed, converts your entire digestive system into an incredibly potent "CALORIE NEUTRALIZING MACHINE" THAT B-L-A-S-T-S OFF AS MUCH AS 16 POUNDS OF FLAB IN JUST 7 DAYS!

In other words, you not only burn, disintegrate, evaporate pound after pound of fat right out of your body... you not only turn calories into energy instead of globs of ugly fat... BUT ACTUALLY MAKE LOSING WEIGHT one of the most thrilling and enjoyable experiences of your entire life!

WHAT A DOCTOR DISCOVERED WHEN HE GOT SICK OF HEARING THE WORD "FAT"!

Let's face it... Doctors are no different than anyone else. They yield to temptation! They love eating good food... BUT—they don't enjoy being called fat. That's why when a leading medical authority finally got disgusted with overweight problems, he became determined to lick it ONCE AND FOR ALL... and without grueling diets, back-breaking exercises or dangerous drugs. Here are the startling facts he came up with:

FACT 1: That no matter what you may have been led to believe in the past the only reason you gain weight is the inability of your body to neutralize, burn, oxidize the calories you eat AND CONVERT IT INTO ENERGY INSTEAD OF FAT! That's why so many thin people can seem to eat "till kingdom come" and never gain an ounce. Their bodies simply have TOTAL ENERGY CONVERSION. That's why, no matter how many different fad-diets, fad "wonder" drugs, or ridiculous reducing gadgets you may have used... NOTHING EVER WORKED!

FACT 2: Medical science through BIOLOGICAL AND BIO-CHEMICAL means can take any food, and meal and

actually NEUTRALIZE it... Yes, actually convert those calories into energy instead of bulging, ugly fat. And, of course, with absolute safety.

FACT 3: That when a COMBINATION OF NATURAL INGREDIENTS are released into the blood stream at precise times of the day (always after each meal) in concert with a calorie-neutralization regimen that has been proven over and over again on tough obesity cases under the auspices of over 3,000 physicians YOUR BODY SUDDENLY B-L-A-S-T-S AWAY INITIAL EXCESS FAT as fast as 1 pound every 8 hours... and without experiencing a moment of food-craving hunger. So, instead of torturing yourself with hit-and-miss diets... that are doomed to eventual failure... instead of kidding yourself, or even worse, harming yourself with dangerous drugs... YOU SIMPLY TAKE ADVANTAGE OF THIS FINAL BREAKTHROUGH... THIS FINAL SOLUTION... AND BURN AWAY AS MUCH AS 79 POUNDS OF FAT IN JUST 3 SHORT MONTHS!

EACH AND EVERY "TAB"—A MINIATURE "CALORIE BURNING" FURNACE

Each "tab" is a compound of natural extracts that when taken orally trigger off a high powered charge of biological reactions. You get an INSTANT LIFT, your body chemistry starts working to REVERSE FAT CALORIE BUILD-UP. You neutralize, destroy and obliterate unwanted, un-needed calories... AND EVEN MORE—YOUR APPETITE IS CONTROLLED!!! You don't feel like eating. And when used with our weight-slashing regimen (program directions) LEADS TO LIFETIME SLIMNESS. It's not only the safest, fastest, best way to a brand new body, but it is the surest way for a normally healthy person to achieve PERMANENT WEIGHT LOSS—WITHOUT THE AGONY OF TORTUROUS, NERVE-WRACKING DIETS.

Think of it! No more torture diets! No more drain on your system and strain on your nerves. No more inhuman demand on your willpower... no more constant calorie counting, and no more embarrassment when your friends feast and you can only fast. Or those nightmare weeks when your family eats and you "nibble". And that dreaded day of final frustration and failure when you eventually crack and the ugly pounds soon bulge again.

And now do you realize why here at last is the perfect reducer... the dream discovery you've long hoped for... the only true, safe, fast and effective reducer that trims down pounds and slims down the figure WITHOUT DANGEROUS DRUGS AND WITHOUT THE RIDICULOUS CHANGES OTHER METHODS REQUIRE IN YOUR DAILY LIFE.

FOR MARIAN CHRISTY, award-winning fashion writer

What are some of the tip-offs to future fashions?
—George Hill, Seattle, Wash.

● First: Don't worry about hemlines. They're stabilizing at the knee. Think sportswear. This is the year to invest in ribbed sweaters to wear with vests and blazers. Sportive tops can be co-ordinated with straight-legged pants or an easy A-skirt with slits that show off great legs. Experiment with colored hose. Forget those basic black shoes—think in

terms of bright-colored suedes. Get a new coiffure—something soft and fluffy. Fashion taboos like don't-wear-velvet-for-day are finished. Designers are showing velvet jackets and satin shirts with wool plaid skirts. The easy-to-wear long-sleeved princess dress is "in." Dior showed it in Paris. Every one of the 53,000,000 home sewers in America can whip up a facsimile for little money. Fluffy furs are fun—fox being in the forefront—but the fakes are great. Wrap up winter in a coat that slides on like a bathrobe, and ties at the waist with a leather sash. Boots are a classic shoe substitute. So keep on stomping along.

FOR JOEY BISHOP

When you host the "Tonight Show," why do you argue with Ed McMahon and some of your guests? You say afterward that you're only kidding, but sometimes it sounds serious.
—Mrs. W. Theis, Green Bay, Wis.

● It really is kidding. I've been doing it for so long that I've taken it for granted you viewers all realized it was just that.

FOR GEORGE MURPHY, former senator from California

How do you feel about the talk of letting Red China into the United Nations?—L. L. Jackson, Waco, Texas

● I'll probably be scolded for saying this, but the United States can't possibly consider letting Red China into the United Nations without totally abandoning the principles of this country. It was this type of thinking that caused us to lose the China mainland in the first place. We didn't lose it, we gave it away. To admit Red China into the UN is like asking the Boston Strangler to tie your necktie in the morning. It just doesn't make sense.

FOR JOE GARAGIOLA, NBC-tv's "Today Show"

You've had successful careers in both baseball and television. What about your own children's ambitions?—Jane Ennis, Schenectady, N.Y.

● My oldest boy, Joe, Jr., would like to get into broadcasting. He's now at Notre Dame, where he's sports director for the on-campus station. My 16-year-old, Steve, plays football, and he's also a good golfer—but I don't know if he has any plans to become a professional athlete. My Gina is 12 years old. I don't want her to be anything but a little girl.

FOR CAROL BURNETT

Since you are so interested in pollution, you undoubtedly have an opinion about the problem. What do you think is the worst contributor to pollution?—Allan Reed, Columbus Grove, Ohio

● Automobiles. There's no excuse for automobiles not being equipped with smog devices.

FOR JIM LANGE of "The Dating Game"

How are the girls selected on your show?—Mrs. Milton C. Bell, Ft. Worth, Texas

● All applicants play a preliminary game, and if they indicate potential for air, they are called back to play for the producer. Final selections are based on appearance, personality and enthusiasm for the game.

FOR JIM NABORS

How did you get started in show business?—Helen R. Smith, Lisbon, N.H.

● I was a film cutter at NBC in Hollywood and singing at night at "The Horn," a showcase club for new talent in Santa Monica. Bill Dana saw me there. He brought Andy Griffith to see me, and Andy brought his manager, Dick Linke. The next thing I knew I was playing Gomer Pyle on "The Andy Griffith Show."

FOR ANN MILLER, tap dancer

I remember you from "New Faces of 1937" and "You Can't Take It With You" back in 1938. Now I understand you will be dancing again in "Dames at Sea" on TV. What does your husband think of your comeback?—Mrs. M. Thomas, Santa Ana, Calif.

● My husband doesn't say. I'm divorced. But I am looking forward to dancing again very much. I've been married three times. Each husband was a millionaire, but I got nothing from any of them. Well, I did get something from the last one—a 35-carat diamond ring.

FOR ROBERT KLEBERG, owner of Canonero II

When Canonero II is retired for breeding purposes, how many colts do you expect the horse to be able to sire in one year? Will this be done through artificial insemination?—Charles B. Rouse, Bradenton, Fla.

● He'll likely be mated to 40 mares a year, since this is the usual number for younger stallions. All will most probably be by natural service, since the Jockey Club, the organization responsible for setting regulations for the propagation of thoroughbreds, permits horses to be sired by artificial insemination only under very limited conditions.

FOR ROBERT MITCHUM

Prior to "Ryan's Daughter," you had expressed a desire to retire. After that film, you said the same thing, and yet now you are making "Going Home." What changed your mind?—Frank Lawrence, Los Angeles, Calif.

● When Robert Bolt called to ask me to accept a role in "Ryan's Daughter," I told him I couldn't because I was planning to commit suicide. "Oh, yes...I see..." he said, "well, if you would do this wretched film of ours first, and then do yourself in, I'd be happy to stand the expense of your burial." It took nine months to make the film, and I swore that that was it, no more, never again. But they kept on sending me scripts. Finally I said, well, it's about time to get out of the house again. I looked to see how many days off I had on the shooting schedule—then I looked at my tax return. That clinched it.

From Japan! An "electronic miracle" for your engine that

TURNS POLLUTION INTO POWER! GIVES YOU UP TO FOUR EXTRA GALLONS EVERY TIME YOU FILL UP YOUR CAR!

Someone had to do it! Someone... somewhere... had to discover how to *burn gas twice in your engine!* So that the waste gas that's pouring out of your exhaust today *could be transformed into a source of extra fuel, and incredible extra power!*

**Let Us Repeat This Fact Again!
This Device BURNS GAS TWICE
In Your Engine! So You Take Off
Like A Rocket At The Lights!
AND YOUR GAS-GAUGE NEEDLE
SEEMS TO BE STUCK AT FULL!**

Right now—for just ninety seconds—come with us inside the engine of your car, and realize the incredible ingenuity and beauty of this idea....

At the present moment, your engine works by feeding gas into your cylinders, and exploding it with a spark. That spark is produced by a spark plug; and each time gas is poured into your cylinder, that plug fires once. *And only once!*

How long does that spark last, even if that plug is brand-new? *About one-thousandth of a second!* And how much of that gas does even a brand-new spark plug burn? *Far less than half!* And what happens to the unburned gas? *It pours right out your exhaust into the air, where it chokes you and every other driver on the road!*

But who in the world ever said that a spark plug should only fire *ONCE*, every time you poured a new load of gasoline into its cylinder! Why only allow that spark to burn that gas for no more than a thousandth of a second? Why not "stutter" that spark—stretch it out—keep it flaming in that cylinder for three... four... even five times as long!

Yes, why not **SUPER-IGNITE** that gas! So that every single drop of it produced up to 30% **MORE POWER**... up to 30% **MORE MILEAGE**... **AT THE VERY SAME MOMENT THAT EXHAUST POLLUTION IS CUT DOWN ALMOST BY HALF!**

**How Many Years Will It Take
American Car Manufacturers To Put This
Japanese "Spark-Stretcher" On Their Engines?
And HOW MANY DAYS MORE ARE YOU
GOING TO WAIT, BEFORE YOU PROVE
THIS KIND OF INCREDIBLE
NEW PERFORMANCE FROM IT
—ENTIRELY AT OUR RISK!**

But now comes the real pay-off! *The breathtaking new performance that you can produce from your car in just three minutes—without even touching a tool!*

All you do is this: Open your hood. Locate your distributor. Simply pull off the wire leading from the distributor to your engine. Plug on this Japanese **THUNDERJET** to your distributor. Put the wire back on top of the **THUNDERJET**. And close the hood.

You've done all the work you need! *Now the THUNDERJET takes over!*

BONUS BENEFITS!

- Super starting sparks—your engine roars to life the instant you turn the ignition key—even in below freezing weather!
- No more summer stalling or overheating! The hotter, longer sparks keep your plugs clean... keep your engine clean... keep your muffler clean! No caked dirt clogs the inside of your car, and can never turn it into a summer oven!
- Plugs last **AT LEAST** twice as long! They stay clean... stay gapped... stay strong! *Another \$10 savings—twice a year!*
- And—above all—you get a **cleaner** engine that needs far less repairs! You get a **cleaner** muffler that lasts twice as long! And you—and every other driver on the road who uses this "Japanese Miracle"—gets a **CLEANER** exhaust, **CLEANER** air, and **CLEANER** lungs! And **YOU** save up to \$50 a year doing it! Why not try it yourself—entirely at our risk—today!

THUNDERJET—ACTUAL SIZE

Get into your car, and switch on the engine. From the very first moment, you'll see and feel the difference! That engine will literally hum with new, throbbing power. When you release the emergency brake, your car will glide out of its parking space... roll down the street with your foot hardly touching the pedal.

Every thirty or forty feet, give that car an extra little shot of gas. Feel it spurt ahead instantly. Test immediately, the marvelous new power that's singing under your foot!

**We Ask You To Pull Up At The Stop Light,
To Another Car Of Approximately
The Same Year And Make As Your Own!**

Sit there for a moment, side by side with that other car. Nod at the other driver as he recognizes that you're both driving the same car—on the outside!

Then wait until the light changes to green. Let the other car start first. Wait till the other car gets half way across the street. And then slam your foot down on the gas pedal!

Before that other car has even crossed the street, you will have caught up with him. For one brief second, you and that other car will race fender to fender. Then you will flash away from him... you will leave him a full block behind... you will look in your rear view mirror and see the startled look of amazement in that other driver's eyes!

**And Now Test This Blazing New Power
In A Hundred Different Ways!**

But this is just the beginning! We want you to test this revolutionary new Japanese spark-stretcher — *entirely at our risk!*

Use it to flatten out the steepest hills at the slightest touch of your foot... to whisk you over the top with power to spare—while other cars are huffing and puffing half-way down the slope behind you!

Use it as a life-saving bonus whenever you pull out to pass another car! Prove to yourself from the very first day that this "double-gas-burn" skyrockets you past those other cars in 2, 4, 6 and even 8 seconds **LESS** than you've ever known before! So fast in fact, that when you stop later for coffee and they finally catch up with you, they'll beg you for the secret!

Yes, and really open it up on the throughway! See for yourself the top speed **THIS KIND OF ENGINE** can now

deliver to you! And then double-check the enormous gas savings it gives you at these high speeds! Prove to yourself that at 50... 60... even 70 miles an hour, your foot is still half-way up on the pedal! That you are now saving \$50... \$100... \$200 a year on your gas bills! That this revolutionary new **THUNDERJET** actually pays back its full cost, in gas savings alone, during the first two to three months that you own it—OR WE SEND EVERY CENT OF YOUR **MONEY BACK**.

Prove It Entirely At Our Risk!

This Japanese **THUNDERJET**—proved by scientifically-recorded tests at both the University of Tokyo and the University of Kyoto—can be obtained in the United States only through this advertisement! Its price is only \$12.98 complete. And that is the total cost! There is no installation fee! A twelve-year-old child can install it in minutes!

And most important of all, we guarantee that you will save the full purchase price in gas bills alone—in the first two or three months that you use it! Or every cent of your money back at once!

You have nothing to lose! A whole new world of driving power and economy to gain! Why not try it at our risk... today!

PANTS IN THE OFFICE

Some like 'em hot; some do not

What do bosses and employees think of girls who wear hot pants in the office? To find out, one temporary office-help firm (Western Girl) took a survey. What they found: hot pants were prohibited in 63 percent of 402 offices in 10 geographic areas; 12 percent didn't approve but permitted them anyhow; three percent felt they were okay if they were not "too hot." Some 29 percent had not been exposed to the problem. The attitude among

the managers who okayed the attire was typified by the remark, "As long as people get the work done, what difference does it matter what they wear?" One interesting statistic: five percent of officers still do not permit miniskirts.

Here's welcome news: More and more health plans are expected to start, including dentists' services. Recently, a large union (United Auto Workers) demanded dental care in its last contract—and won. That victory brings the number of workers and families covered by dental insurance past the 10 million mark. Facts are that four in every five Americans over 14 have gum trouble; one child in four has disfiguring alignment of teeth—and too many breadwinners find dental costs too high to do anything about it. Hopefully, that problem is on its way out.

What was Dr. Timothy Leary like before he became so involved with drugs? "Charming, friendly, a really creative researcher," says antidrug crusader Dr. Allan Cohen, a former Leary disciple. "But after the drug thing started, Timothy became disenchanted with the academic world. He never stopped believing that the psychedelic experi-

ence represented the best of life." Doctor Cohen, 31, and now Dean of Students at JFK University in Martinez, Calif., is one of the growing legions of former experimenters who have become disillusioned with drugs. "Our community was deluding itself. For example, I watched a group come into the kitchen, high from an LSD experience, then start fighting over who'd do dishes. I know now that love for God can make you touch higher than any drug." As for Leary: "He's ruined his life with too much acid. In jail, he'd be a martyr. Outside, he's a living example of a man of great promise short-circuited by drugs." Doctor Cohen has written a new book on drug alternatives, "Understanding Drug Use: An Adult's Guide to Drugs and the Young" (Harper & Row, \$5.95).

The little girl was lost in the supermarket. She wandered up and down the aisles, sobbing out her mother's name, "Nancy, Nancy, where are you? Nancy, I'm lost."

When the mother caught up with the child, she reprimanded her. "I'm Mother to you, not Nancy."

"I know," said the little girl, "but this store is full of people called Mother."

A GI had put in a request for special leave in order to help his wife with the spring housecleaning. The CO, racking his brain for a tactful denial, said, "I hate to refuse you, but I've received a letter from your wife saying that you are more of a bother to her than a help."

The GI saluted and turned to go, then stopped. "Sir," he said, "there are two people in this outfit who are pretty loose with the truth, and I'm one of them." He paused, then added, "I'm not married."

CHILDREN'S TALES

A Ride in Space

PART I

WE WERE ON A STEADY COURSE AND 30 DAYS INTO OUR MISSION. THE FAR AND MYSTERIOUS STELLA MARA PLANET WAS OUR DESTINATION. THE CREW WAS REALLY EXCITED BECAUSE IT WAS IN AN UNEXPLORED GALAXY, AND NO SPACE SHIP HAD EVER BEEN THERE BEFORE.

THEN BOBBY, MY COPILOT LOOKED THROUGH THE PORTHOLE. "HEY!" HE YELLED, "THERE IT IS. STELLA MARA IS RIGHT AHEAD OF US."

10-31 © 1971 McNaught Synd., Inc.

THE SPACE CENTER ON EARTH HAD BEEN RECEIVING VERY STRANGE BEEPS FROM STELLA MARA FOR OVER A MONTH. OUR MISSION WAS TO FIND OUT WHAT THOSE BEEPS WERE.

"WELL, THERE GOES CRAXON ON OUR RIGHT," SAID TOMMY, OUR NAVIGATOR. "WE SHOULD BE COMING UP ON STELLA MARA PRETTY SOON."

BOBBY WAS RIGHT. THERE IT WAS. IT LOOKED KIND OF CREEPY, NOT LIKE A REGULAR PLANET.

"OK, TOMMY, ACTIVATE THE RADIO. WE DON'T WANT TO MISS THE STRANGE BEEPS IF THEY START UP. WE CAN'T FAIL THE SPACE CENTER. WE HAVE TO FIND OUT WHAT THE BEEPS ARE."

WITH THE RADIO ACTIVATED, WE DECIDED WE COULD HAVE A COOL LEMONADE AND RELAX A LITTLE.

BUT THE REST PERIOD DIDN'T LAST TOO LONG, FOR RIGHT IN THE MIDDLE OF A DELICIOUS SIP OF LEMONADE I HEARD IT. THE BEEPS. SLOWLY AND WEAKLY AT FIRST, BUT THEN STRONGER AND STRONGER AND STRONGER...

QUIZ/By John E. Gibson

The Impressionable Years: How Our Children Are Really Influenced

True or False: A suitable pet can make the difference between a happy and unhappy childhood (See number 4)

The most important years of your life are the formative ones—when character is molded, when thoughts, ideas and concepts are given direction. This is the period your child is living in. And this quiz deals with some of the things parents are most concerned about during that time.

TRUE OR FALSE?

1. The most important thing you can give your child is an education which will equip him to achieve his full potential in life.
2. If your child has a good sense of humor, this is an indication of creative ability.
3. If your child has developed a "hate" for a neighborhood boy, the best way to handle it is to keep hands off and let him get it out of his system with fisticuffs or harmless name-calling.
4. A suitable pet can make the difference between a happy and unhappy childhood.
5. Boys tend to have a different concept of God than girls do.
6. A parent can learn as much from his child as his child can learn from him.

ANSWERS

1. *False.* Authorities agree that the most important thing you can give your child—especially in his tender, formative years—is *understanding*: taking the trouble to listen to his problems with a perceptive ear, and acquiring sensitive insight into the things that he wonders and worries about. Nothing is more vital to a child's sense of security than a close relationship with his parents.
2. *True.* Psychological studies have shown that a well-developed sense of humor, a marked ability to see the funny side of things, is an indication that the child possesses creative ability. Other signs of creativity in children: learning to walk and talk at an early age; an inquiring mind and strong curiosity about people, places, what makes things

tick; good reading ability and enjoyment of reading; and a tendency to favor older children as playmates.

3. *False.* This is likely to lead to further violence on both sides and result in troublesome complications. Studies conducted by investigators from two leading colleges have demonstrated the efficacy of a method of harmlessly releasing one boy's hostility toward another. Let him draw a picture of the boy he 'hates' with chalk, or whatever, on a large piece of cardboard—prop it up in the back yard and throw things at it as hard as he can. The psychologists found this principle to be highly effective with aggressive youngsters in reducing their feelings of anger and hostility.

4. *True.* Psychologists have found that a child will often feel closer to a pet than he does to any friend or playmate. And frequently a child who may have difficulty in relating to an adult can achieve a wonderfully satisfying relationship with a pet. Also, studies show that children with emotional problems have benefited remarkably when they acquired a pet which they could feel a close accord with.

5. *True*—according to the findings of a psychological study on how boys and girls felt about God. The investigation showed that the qualities emphasized by girls were *helpfulness* and *affection*. ("He helps us to be good." "He takes care of us.") Boys were more inclined to think of God as an *all powerful creator, a lawmaker, judge and punisher*.

6. *True.* A little child's attitude—full of hope, love and curiosity—often reflects a far healthier state of mind than the adult's does. The wise parent will realize that he can often absorb a great deal of simple wisdom from his child. The child can teach him, among other things, something that perhaps he has forgotten—*how to be happy.*

What's religion got to do with success in marriage?

Marriage advice was never so freely available as it is today. Marriage problems were never so openly discussed. Worldly goods for family use were never more abundant. Yet divorce and unhappy marriages continue at an appalling rate.

With all the talk about how to make a "go" of marriage, little is said about religion. This is strange considering that the family is an essential part of God's plans for the world of men . . . and that God is, in fact, the true architect of successful marriage and family life.

Whether you are already married . . . or just thinking about it . . . it may help you to read our new pocket-size pamphlet: "The Real Secret of Successful Marriage" Write today. We'll send a copy free . . . nobody will call.

PAT BOONE: "Today, My Career

Professional colleagues have made him the target of jokes. Dean Martin cracked, "That Pat Boone . . . he's so religious! When I shook hands with him the other day, my whole right side sobered up." But Pat enjoys the ribbing. "Let's face it," he admits, "I am an oddity."

Pat Boone had it made: success, popularity, money, acclaim, a loving wife and four beautiful daughters. Then, as he tried to simultaneously straddle two separate worlds (the glamorous show world where he worked, and the fundamental world of his wife, children and faith, where he lived) everything suddenly came apart at the seams. "My marriage, my family life, my faith and my career all began to unravel in the classic tragic pattern."

Pat began his singing career by winning a Ted Mack amateur contest. This was followed by appearances on the Arthur Godfrey Show and a success that took him to the heights of his profession. His records (30 million of them) whirled around on turntables all over the nation. He made personal appearances, movies and starred on his own television show. Apple cheeked, scrubbed clean, Pat Boone was the All American Boy with white shoes, the dream son of every American mother, and a solid show-business smash. To meet the staggering demands on his time and talent, the Boones moved to California and established their home base there.

"I quit my television show to make the film 'Journey to the Center of the Earth.' We decided to concentrate on movies and quit the grind of weekly TV performances." Pat continued to travel when necessary, ". . . for weeks at a time on a film set or on a concert tour." As he did this, the question at the Boone home grew more and more . . . "Will success spoil Pat Boone?"

The career-demanding travel on Pat meant separation; his wife Shirley couldn't go along because the children were little. "What troubled her so much was that she knew my standards were starting to slip. For one thing, I had begun to drink a bit, partly because I had been in Europe where it was normal to drink wine instead of water. Also, I had been with missionary friends in Germany who said they had to drink beer with people in order to reach them with the Gospel. I claimed this as a basis for my feeling that there wasn't anything inherently wrong with alcoholic beverages."

The returned-from-Europe Pat was quite different from the Pat Hollywood had remembered. "I didn't see any reason for not having something to drink," he now confesses. "And this brought on other

things . . . I started telling indecent jokes at parties. Obviously I was changing to a greater and greater degree."

When Shirley questioned him husband Pat recalls, "I would shrug off what she was saying. On the road, I would go to a party on Saturday night and be out until two or three in the morning. During those hours I would engage in a lot of risqué talk with girls. I found it easy and enjoyable. An occasional drink, the loud music and the titillating awareness that some young lovely was obviously 'available' all seemed more and more fun."

As that "fun" increased for Pat Boone, so did his troubles. While filming a scene in "Good-Bye Charlie" with Debbie Reynolds, Pat found himself playing a naïve "mama's boy" character. "It was a caricature of what many people really thought about me—something of a square. I was playing Pat Boone, plus! But I played it all the way, to the extent of drinking champagne, getting half-bombed. When I got home, Shirley felt she was looking at a stranger."

This was a family crisis. Shirley was more troubled than Pat; she could see her family and the Boone life about to crumble. While in this drift, Shirley and Pat began to wonder whether they really loved each other.

Shirley had made the decision not to fight Pat. But she was finally forced to remind him that, as the head of their family, he was responsible not only for himself but for the souls of five other people.

Shirley's pronouncement struck Pat. Now he had to admit that his life was floundering. From his North Texas State College days, when he had served as a preacher for the Church of Christ, he had strayed far. It was stark to him now that he had lost his way not only with his wife and children but also with God.

Troubled, Pat turned to a friend. The friend, realizing that here was a tormented soul, introduced Pat to one Harald Bredesen, a man of God. Bredesen came to Pat's home, where they talked long and seriously. Bredesen suddenly asked: "Can't we go outdoors where we can pray?"

Out in the open, they wandered to the Coldwater Canyon of the Hollywood Hills. Here, with Bredesen in the lead, they began climbing up to the heights, praying

Is Second to Family and God"

Pat with Shirley and family: His wife was finally forced to remind him that, as the head of their family, he was responsible not only for himself but for the souls of five other people.

as they went. A strange passion came over Pat. As Harald Bredesen prayed, Pat listened.

"It was difficult to tell when he stopped talking to me and when he started to pray to God," Boone recalls now. "He prayed with his eyes closed, he prayed walking, he prayed standing still, he knelt down to pray. The sense of God's presence began to grow on me. The sun dipped into the ocean, darkness crowded over the hills; lights winked on in the houses in the valley below. Only faintly was I now aware of the physical world about me. Never before had I experienced the sense of the Lord's presence as I did now on the mountaintop. I had the feeling He was all around me. With the sense of His presence came a feeling of release, as though I were suddenly freed from the restraints and

limitations of the world below me."

As he worshipped, Pat sensed "a love for my brother and for my wife and children, for all those who came to my mind in those hours, that I had never sensed before. We prayed, we wept, we shouted, we sang. It seemed to me that all the inhibitions, apprehensions and concerns of my life washed away."

Down from that mountaintop and out of that intimate experience, there arose a new Pat Boone—a man who now felt cleansed and who was absorbed with a new hyper-belief in God. From that day on, a reunion of love began to surge through the hearts of Shirley and Pat. "My marriage became like a honeymoon again, and my children and all of us were extremely close."

As Boone's commitment to God swelled

out, extending over into his career, his business, his friendships, professional colleagues (Frank Sinatra, Phil Harris, Don Rickles, etc.) began to make him the target of jokes. Dean Martin cracked, "That Pat Boone . . . he's so religious! When I shook hands with him the other day my whole right side sobered up." But Pat enjoys his show-biz friends and their good-natured ribbing. "Let's face it" he admits, "I am an eddity."

There have been more serious repercussions and reactions to his career. On the Merv Griffin television show recently, Pat said he felt that his devout belief and practice has hurt him somewhat professionally. Whether this is true or not is not clear. His capable personal manager Jack Spina (the only one he ever had), who has guided his commercial destiny for 16 years, has well understood Pat's personal trauma. Spina has skillfully modulated Pat out of his exclusive solo work into the group field as well, with the entire family. "The Boone Family" has already cut several records and albums (on the religious side) for a receptive market. They have appeared in concert to standing-room-only audiences, and this June they headlined at the Fremont in Las Vegas for four weeks. Pat has also told his story in his latest book, "A New Song."

Last April, Pat's Church of Christ in Inglewood, California, through one of the elders, read a statement of "disfellowship" to the congregation, directed to Pat and Shirley. His disapproving minister, the Reverend Darrel Rickard, told the congregation "Pat has gone to an emotional extreme. It has become almost a narcotic type of thing, a spiritual type of high . . ." But Pat remains convinced that he has found his destiny, and nothing can change it. Personal happiness, he says, and the happiness of his family are more important than either his career or the opinions of others. He is hopeful that our young people, too, can restore their lost identity. "Today's young people have grown up without a feeling of identity or relationship with God," says Pat.

With increasing frequency, Boone appears at rallies where the kids flock to see and hear him. He tells them, "There's no isolation from drugs and other problems today; there's only insulation—a search for meaning, relationships that matter. All this can be summed up in that one word: insulation."

To Pat Boone it came that day high on the Hollywood mountaintop. With his own identity found, Pat and his family are more and more "a-travellin', a-talkin', a-singin', and a-spreadin' the word"—"insulation."

Softly compressed Tampax tampons give her protection she can depend on. They're worn internally so nothing can show. And so comfortable, they can't even be felt when they're properly in place. No wonder millions of women who think for themselves choose Tampax tampons.

Hello, my name is Norris Strauss . . . and I've got to get something off my chest before I explode!

You may think I'm a big shot for putting a full page ad in *Family Weekly*. Actually I just work at a regular job which I enjoy. I was born and raised in Brooklyn as were my parents—I have many relatives here. I've only moved once in 28 years.

I'm not a racetrack character, nor am I fronting for anybody. Instead of a yacht, sports car and six figure bank account as system writers boast, I drive an ordinary klunker and live in a modest apt. (my family says it's too modest). But I have plenty of leisure and a local rep as a studious neighbor who burns the midnight oil. I was always fascinated by serious research on old Racing Forms to see what I could come up with . . . well, after many disappointments, I finally found the pot of gold.

I've hit onto something so royally big that I feel like the Chinese with a tiger by the tail, and it's driving me nuts! I went into a spin and ordered a whole stack of back issue Racing Forms, and I found a winning secret that WORKS, period. I can't express the joy of this achievement, nor the sense of power or well being—I feel SECURE.

If I didn't expect a nice pension—I plan to pull a slow one and live to 100, didn't enjoy my job, didn't have ample leisure, if my family wouldn't give me a hard time, if I weren't so darn timid, if my religious parents weren't so anti-gambling, I'd follow the sun from track to track. I've figured I can win over \$11,000 a year on \$20 bets, and that's more than I earn. What to do? What to do?

I need advice. How can I convince people? I've got the races beat out of the

frame and I just can't keep it to myself or I'll burst at the seams!

Maybe I shouldn't bring this up, as I have no proof and won't mention names. But something is odd—these horses are winning when they "shouldn't." If I've cracked a code involving track management, publishers or horsemen, or any related combination thereof, I'm ecstatic. If some group is making money on these winners, well—

I checked this method on old Racing Forms for the following periods: Nov. 65 through Apr. 66; Aug. 67 through 68; Jan. 69 through Sept. 69. All periods proved very profitable. Tightening the rules might improve it, but it looks great as is. Were these just lucky periods?

The system selects about 4½ plays per day per track, so you can see this gets plenty of action. Past results have shown that you can expect to make about \$962 profit on \$20 win bets per month at one track. Winners will average about 30% with an average win mutual of about \$9.55.

It's completely mechanical and requires no judgment. It's really simple. If I were dying, I could whisper it to you in about 100 words (60 if I had rehearsed the scene). All you need is the Racing Form or Morning Telegraph. No need to be at the track.

Ever did anything wild on a lark? Want to join this adventure, come what may, for \$10? Ever thought of following the sun from track to track? Or perhaps playing the horses at the legal bookies in Vegas or Caliente? No job worries, no boss, sleep late, plenty of money—but most

important of all, living the kind of life so few people are ever able to.

One last word. You've seen system sellers using aliases from p.o. boxes and mail drops. Has any one of them ever signed his real name, given his history, worked for an honest living, stayed put over 60 days, or cared for anything except getting your money? Weigh that.

I can rush my complete secret to you by return mail for \$10. Check me out. Do what I did. Take any back Racing Forms over a reasonable period of time. Apply my system. If you can show me that it doesn't work, I'll NOT ONLY REFUND YOUR \$10 BUT I'LL DOUBLE IT AND SEND YOU \$20. Fair enough?

READ HOW THOSE USING MY SYSTEM ARE MAKING OUT WITH IT

I can't thank you enough for this system. So far all my back checking has proven to be correct. The following results were obtained through diligent checking:

Hollywood Park	July 1 to Aug. 1, 1970	\$1,394	(21 days)
Aqueduct	July 1 to Aug. 1, 1970	\$814	(27 days)
Saratoga	Aug. 3 to Aug. 29, 1970	\$826	(20 days)
Belmont Park	Aug. 31 to Sept. 30, 1970	\$862	(25 days)
Golden Gate	Mar. 27 to April 10, 1971	\$600	(13 days)
Del Mar	July 24 to Aug. 31, 1970	\$4,252	(32 days)
Bowie	Mar. 24 to April 10, 1971	\$930	(15 days)
Santa Anita	Mar. 24 to April 10, 1971	\$1,000	(13 days)
Aqueduct	Mar. 24 to April 10, 1971	\$400	(17 days)
Longacres	May 29 to June 28, 1970	\$2,378	(20 days)
Longacres	Aug. 1 to Sept. 12, 1970	\$1,840	(25 days)

I can just hardly believe it! Thanks to you I can win at the races!—C.M., Seattle

At Golden Gate here from Feb. 16th opening day to March 24th the system showed a net profit of \$1728 on a \$20 flat win bet. A \$10 win \$10 place bet showed \$1257 net profit. From March 24th to present—the overall profit has decreased to \$1200 flat win (\$20).—B.S., El Cerrito, Calif.

Thank you! Thank you! Thank you! Everything you said is true. You have come up with the best system ever. I've tried to strengthen it, break it, refine it but I simply cannot come up with any way to improve on it. My success has been at the Liberty Bell and even when I wasn't at the track I figured the races and your

method proved itself time and time again.—D. F., West Chester, Pa.

I am the owner of many racing systems, all which are very good. When I received the system which I ordered from you I tried the system, I checked and rechecked it, and I can truthfully say that it is one of the best systems I own.—M. F. W., South English, Iowa

Enclosed find results at the track for the last 2 months. It's incredible. I am ahead by \$1550. You may use my name for any testimonial.—L. O., Los Angeles, Cal.

Incidentally, I find that the system's choice comes in 2nd often enough that it pays to bet both win and place. In fact winnings as far as I've gone are just about double by betting both. Thanks for being one honest solicitor.—B. F., Gila Bend, Ariz.

I owe you a million thanks. Just like you said, it doesn't work at all times, but I'll be honest with you the highest number always comes in the money.—E. S., Lorain, Ohio

I have been checking your method on some old forms for a period of 2 months so far and have found it profitable.—N. S., Mount Vernon, N.Y.

She Needs Your Love

Little Mie-Wen in Formosa already knows many things . . . the gnawing of hunger . . . the shivering of fear . . . the misery of being unwanted.

But she has never known love. Her mother died when she was born. Her father was poor—and didn't want a girl child. So Mie-Wen has spent her baby years without the affection and security every child craves.

Your love can give Mie-Wen, and children just as needy, the privileges you would wish for your own child.

Through Christian Children's Fund you can sponsor one of these youngsters. We use the word sponsor to symbolize the bond of love that exists between you and the child.

The cost? Only \$12 a month. Your love is demonstrated in a practical way because your money helps with nourishing meals . . . medical care . . . warm clothing . . . education . . . understanding housemothers . . .

And in return you will receive your child's personal history, photograph, plus a description of the orphanage where your child lives. You can write and send pack-

ages. Your child will know who you are and will answer your letters. Correspondence is translated at our overseas offices.

(If you want your child to have a special gift—a pair of shoes, a warm jacket, a fuzzy bear—you can send your check to our office, and the entire amount will be forwarded, along with your instructions.)

Will you help? Requests come from orphanages every day. And they are urgent. Children wrapping rags on their feet, school books years out of date, milk supplies exhausted, babies abandoned, by unwed mothers.

Since 1938, thousands of American sponsors have found this to be an intimate person-to-person way of sharing their blessings with youngsters around the world.

Little Mie-Wen and children like her need your love—won't you help? Today?

Sponsors urgently needed this month for children in: India, Brazil, Taiwan (Formosa), Mexico and Philippines. (Or let us select a child for you from our emergency list.)
